Oluwatobiloba Arawole

Full Stack Engineer | React, Next.js, TypeScript, Supabase

arawoletobi4life@gmail.com +234 906 117 0241 Lagos, Nigeria
oluwatobiloba.name.ng

PROFESSIONAL PROFILE

Full stack engineer with over three years of experience building web and mobile products with React, Next.js, TypeScript and Python. Has shipped a subscription ride-sharing platform, a real-time marketplace, client booking and e-commerce sites with Paystack payments, and a wallet-based VTU platform with a double-entry ledger, working closely with backend teams on API design and integration. Also spent years in hands-on technical support, which makes debugging production issues and understanding how real users get stuck second nature.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, HTML, CSS
Frontend	React.js, Next.js, React Native, Redux, Redux Toolkit, Tailwind CSS, Sass, MUI
Backend & APIs	Supabase, Firebase, MongoDB, Paystack integration, REST API integration (Django backends), WebSockets, Odoo ERP (Python, XML), Oracle APEX
Platforms & Hosting	AWS, WooCommerce, WordPress, cPanel, WHM, DNS, SSL, Netlify, server-side troubleshooting
Tools & Workflow	Git, GitHub, GitHub Actions, Postman, Jira, Confluence, Figma, Agile delivery

WORK EXPERIENCE

Founder & Full Stack Developer
Ongoing

Mentor Tech (mentortech.name.ng) · Lagos, Nigeria

- Build full stack web applications for Nigerian businesses and schools using Next.js, TypeScript, Tailwind CSS and Supabase, including booking, payment and admin features.
- Deliver WooCommerce and WordPress stores, and handle the full cycle from requirements and UI to deployment, hosting, daily database backups and maintenance.

Customer Support Officer (Technical)
January 2025 - Present

HostAfrica · Lagos, Nigeria

- Diagnose server-side issues across hosting environments, including DNS, SSL and cPanel/WHM configuration, and escalate to engineering with clear reproduction steps.
- Document recurring issues and fixes in internal ticketing systems, reducing repeat escalations.
- Relay user feedback to product and technical teams to shape service improvements.

Project Manager & Full Stack Developer
August 2024 - March 2025

RideAngelo · Lagos, Nigeria

- Led technical delivery of a subscription-based ride-sharing platform, from planning through release.
- Built the web app with React.js and the mobile app with React Native.
- Worked across frontend and backend, integrating the React.js and React Native clients with Django APIs and ensuring reliable data management.
- Delivered a scalable platform within agreed timelines and stakeholder requirements.

Customer Support Officer
April 2023 - January 2025

GO54 (WhoGoHost) · Lagos, Nigeria

- Resolved technical queries on domain hosting, email setup, website migrations and hosting plan upgrades.
- Configured DNS and SSL and supported clients through cPanel/WHM, escalating server-side faults to technical teams.
- Collaborated with product and technical teams to relay user feedback and improve the service.

Frontend Developer
August 2023 - May 2024

Payr · Lagos, Nigeria

- Built and maintained a responsive buyer and seller marketplace using React.js.
- Implemented real-time chat with WebSockets.
- Created reusable UI components with Redux and Redux Toolkit for state management.
- Worked with backend developers to integrate APIs for authentication, product listings and payments.

Full Stack Software Developer
June 2023 - March 2024

Novaji Introserve · Lagos, Nigeria

- Contributed to the frontend of a fintech application, improving usability through responsive design.
- Led full stack development (frontend and backend) of a school management system on Odoo ERP.
- Built full stack customisations for Odoo's ticket management system using Python, XML and JavaScript.
- Contributed to a bank compliance system built on Oracle APEX.

Web Developer
July 2022 - August 2023

Anchor Ministries · Johannesburg, South Africa (Remote)

- Designed, built and launched a church website and a radio streaming website, then maintained both for performance and security.

Frontend Developer Intern
May 2021 - September 2021

Soft Alliance · Lagos, Nigeria

- Implemented website features and fixed front-end bugs alongside the development team.

SELECTED PROJECTS

- **VTU Platform:** Nigerian top-up platform built with Next.js 14, TypeScript, Tailwind, Supabase and Paystack. Includes wallet management, a double-entry ledger, a purchase engine, an admin panel and reseller tiers.
- **Beauty by Bummety:** Full stack salon booking website (Next.js 14, Supabase, Paystack). beautybybummety.name.ng
- **RideAngelo:** Subscription-based ride-sharing web and mobile platform. rideangelo.com
- **Jewels and Pearls Schools:** School website and school management application built for a private school client. jewelsandpearlsschools.com
- **Payr:** Online marketplace with real-time buyer and seller chat.
- **WooCommerce Stores:** E-commerce builds including vitamins.ng and Mentor Tech's own store. store.mentortech.name.ng
- **Legal Decision Support System:** Final year project (Grade A): web app backed by a neural network model that recommends decisions from past case data.

Source code for client projects available on request.
